

Family Medical Services

The Friendly Practice

Dr A J Newman MBBS., DRCOG., FP CERT.

Notice to Patients of Dr Newman's Surgery

Face Masks

The Doctors have requested that all patients attending the surgery must wear a face mask / covering to protect not only yourself, but also the staff at the surgery.

If we have no staff, there will be no one to treat you.

Appointments

If you are attending the surgery for an appointment, please arrive wearing a face mask.

Please arrive at your allotted time. The surgery doors are still closed, and if you are early you may be asked to wait outside.

On entry you will be asked to sanitise your hands and we may perform a temperature check. If you have a CoVid-19 symptoms DO NOT ATTEND.

NHS App

Do you want access to your Medical Records? If so, consider downloading the NHS App, available from both Google Play or the App Store.

The NHS App gives you secure access to your records and you can apply online via the App.

The App also now gives you access to eConsult (see below).

eConsult

What is eConsult?

eConsult is a form of online consultation that enables you to contact your GP over the internet. Available from both our website:

www.doctornewman.co.uk and via the NHS App (see above).

It saves you waiting for an appointment or on the phone.

In some cases, you can also send in photos with your request.

Also it can be used for Sick Note requests or other administrative help.
